

STUDY Y. M. C. A'S.

COMMITTEEMEN ARE GATHERING FACTS TO PRESENT TO PEOPLE.

PREPARE A CAMPAIGN

Will Start to Raise Money After Judge Spencer's Chautauqua Lecture.—Dormitory Features.

Although the movement for a Y. M. C. A. here is not now very much before the public, it has not been given up. The committee in charge is hard at work studying the question and gathering facts to present to the people in an active publicity campaign that will be started soon.

S. H. Kemp, chairman of the committee, is spending the month of July on a tour through the west to Wyoming. He is visiting all the Y. M. C. A.'s in the cities and towns he passes through, investigating their cost, construction, maintenance and the work they are doing. He expects to learn some things that will be of great value in the organization of a Y. M. C. A. and the erection of a building here, should the plans carry through.

Secretary of the Commercial Club W. R. Jackson is also investigating the different phases of Y. M. C. A. work. He is keeping in touch with State Secretary Banks concerning the association plans. He is studying the problems that other associations have had to meet and relating them to the conditions here. The committee wants to be thoroughly informed so as to be able to handle all matters connected with the proposed local organization to the best possible advantage.

The men at the head of the movement are counting on Judge Seldon P. Spencer of St. Louis to put the matter before the people of the community in a concrete way in his Chautauqua lecture the last Sunday of the session. For this reason they are working to arouse as much interest in Judge Spencer's lecture as possible in order that a large number of persons will go to hear him. The assure a lecture full of interest to all, for Judge Spencer is an able man, who has made a name for himself in public life. His success as a lawyer, member of the legislature, and as judge has been due largely to his education, which has made it possible for him to do things. He is particularly fitted to discuss Y. M. C. A. work, for he has long been an active member and was once international president of the association.

Mr. Jackson said today that the dormitory feature would be one of the principal things connected with a building, should one be erected. It is planned to have twenty or thirty single and double furnished rooms to rent. The rent money will go toward making the association self-supporting, and no trouble in renting the rooms is expected. In many respects these rooms will be better than any others in town. Not only will they be well furnished, but their occupants will be privileged to use the shower baths, swimming pool, gymnasium and other social features of the club. The use of reading and lounging rooms will give a more home-like character to the place than is possible in dormitories where each individual has the use of his own room only. The rents, too, will be reasonable.

Such rooms, Mr. Jackson says, would be ideal for young men working here in town or those going to school here.

The active campaign for raising the funds for the Y. M. C. A. will begin after Judge Spencer's lecture at Chautauqua, August 23.

REMODELING SCHOOL HOUSE.

Addition Being Built to Barnard Public School.

Work has begun this week on the new addition to the Barnard public school. Two large rooms are to be added and other interior remodeling done. The building is already a good four-room brick structure, and the new addition will make the school house one of the best of the county town buildings outside of Maryville.

TWO "GOOD ROADS DAYS."

Governor Major of Missouri Designates August 18 and 19 and Will Issue a Proclamation.

August 18 and 19 will be "good roads days" in Missouri, Governor Major announced today. The governor said he would issue a proclamation this week officially setting apart the two days and calling upon every able bodied man in the state to either work on the public highways or make some substantial donation to the good of the cause of good roads.

Governor Major originated the idea of state "good roads days" last year and several other state executives followed his example of calling for volunteer work on the public highways. Last year 250,000 men worked the two days designated in this state and it is estimated that the improvement to the highways by reason of their work amounted to \$1,500,000. The governor said today he was preparing to take a pick and shovel and work as he did last year.

GRIZZLIES WIN CHAMPIONSHIP.

Two Picked Teams Will Play Series of Seven Games at Normal Next Two Weeks.

The summer base ball league ended yesterday afternoon when the Grizzlies won the championship, defeating the Athletics by a score of 5 to 4.

Out of the three teams which have contested in the league two teams have been chosen, and a series of seven games will be played, commencing Friday of this week. The two teams are captained by Adams, whose team is called the Cubs, and by Bird, whose team will be known as the Sox. The best ball players in the summer school have been chosen to make up these teams.

The line-ups of the teams are as follows:

The Cubs—Adams, captain; Dyer, Ham, Ferguson, Eek, Bowen, Powell, Campbell, Hosman, Hinkle, Powers and Lewis.

The Sox—Bird, captain; Richards, Wogan, Brett, Vaughn, Alley, Quinn, Webb, Howerly, Gillis, Palmer and S. Allison.

The first game will be played at 4:15 o'clock Friday afternoon.

In yesterday afternoon's game the Grizzlies started activities by getting two scores in the first two innings. Later, with the bases full, Alley walked two men and allowed one hit, giving the Grizzlies five tallies before the Athletics scored. In the fourth inning Quinn replaced Alley in the box, and succeeded in shutting out the opposing team.

When the Athletics came to bat in this inning they found their stride, and by opportune hits got two runs. After retiring the other side in the fifth inning they got two more scores on a batting rally, but could do no more.

This game gave the Grizzlies the summer league championship, with the Athletics in second and the Giants in third place.

WILCOX ITEMS.

(Van Yardley.)

The Rev. Granville Snell will conduct evangelistic services at the Christian church every night this week. Next Sunday there will be a basket dinner for both Sunday schools. There will be preaching in the afternoon by the Rev. Mr. Love of Burlington Junction and the Rev. Mr. Orrison of St. Joseph.

DREDGE IS STUCK ON SALE JULY 21

NOT ENOUGH WATER IN RIVER TO FLOAT BIG BOAT.

DITCH WORK STOPPED

Little More Than Two Miles Finished and Time of Channel's Completion Can't Be Estimated.

The steam dredge which was to have cut at new 7-foot channel drainage ditch from the Iowa line to the Carr bridge, four miles south of Maryville, by September 1, is resting on the bottom of the river, useless, a short distance north of Hopkins. Nothing has happened to the dredge, however. It is in good condition and ready to start work again as soon as the river furnishes enough water to float it.

When the work was first started last April, D. C. Stephens & Co. of Buffalo, N. Y., contractors, expected to finish the nineteen miles of ditch by September 1. Unforeseen things have made that impossible, however, and but little more than two miles have been completed. Once previously the drainage was forced to lie idle thirty-three days because the water in the channel was too low to float it.

H. H. McClurg, secretary of the 102 drainage board, said this morning that the dredge was lying in the middle fork of the ditch north of Hopkins. The west fork, or main ditch, from the Iowa line to Hopkins was completed some time ago. The dredge was then taken to the middle fork to begin work, and the job was about half completed when the water became so low that work had to be stopped.

The channel which is being dug to straighten and shorten the 102 river will cost \$32,000. It will be nearly eighteen miles long, or one-third the length of the river. The channel will be seven feet deep, twenty-four feet wide at the top and eight feet wide at the bottom, and its construction will necessitate the removal of nearly half a million cubic feet of earth.

The time of completion of the ditch is a thing beyond estimate. Now that the water has given out just at the beginning of the season, when the least rain can be expected, it is impossible to say when the work can be resumed.

WILLIAM NASH DEAD.

Hopkins Man Dies at Leavenworth—Brother of Mrs. Wm. Armstrong.

William Nash of Hopkins died Tuesday morning at the Soldiers' home at Leavenworth, Kan. The body will be brought to Hopkins for burial, reaching there Wednesday noon, when the funeral arrangements will be made.

Mr. Nash's wife died several months ago, and shortly after that he suffered a paralytic stroke. After he became stronger he went to the Soldiers' home to live. He leaves a son, Sargent Nash, who is employed in the office of the Hopkins Journal; a daughter, Miss Helen Nash, who is in this city attending the Normal, and a sister, Mrs. William Armstrong of Maryville.

Rev. C. R. Green to Columbus.

Rev. C. R. Green of the Harmony church, accompanied by Mrs. Green, left Monday for Columbus, O., to attend a special session of the general conference of the United Brethren and Methodist Protestant churches. On their return home, Rev. and Mrs. Green will stop at St. Bernice, Ind., to visit.

The case of William G. McGeorge against Oscar Cox was appealed today from the justice court to the circuit court by the plaintiff.

ON SALE JULY 21

CHAUTAUQUA TICKETS ON MARKET WEEK FROM TODAY.

PRICE GOES UP AUG. 8

Pickering Six-Day Session Begins Tomorrow—Talent Again Furnished by the Jones System.

One week from today, Tuesday, July 21, the ticket sale for the Nodaway County Chautauqua will begin. Following the method used in former years, the town will be canvassed and tickets will be put on sale at the different business places down town. Saturday, August 8, is the time limit set within which tickets may be bought at reduced rates. The price of season tickets for adults is \$1.75 at the reduced rate. Children's tickets will sell for \$1. After August 8 the prices will be raised to \$2 for the adult tickets and \$1.25 for the children's.

The Pickering Chautauqua, which begins tomorrow, is to be put on by the Jones Chautauqua System, the same one which started the Elmo Chautauqua today. The Jones people first began giving Chautauquas in the towns of the county three or four years ago. To some of these towns they have returned every year, and have from year to year started the Chautauqua movement in other towns. The Pickering Chautauqua will last six days, and during that time twelve programs will be given, one each afternoon and night.

The programs for the first three days are:

Thursday—The Hauser Sisters, musicians, and Prof. Charles B. Rayhill, lecturer, who will give both the afternoon and night entertainments.

Friday—An afternoon and night entertainment by Carl A. E. Jesse, pianist, harpist, crayon artist, impersonator and magician, and Dr. H. C. Kleckner, lecturer.

Saturday—Two complete programs by the Burgess Dramatic company. This company will give short plays, character sketches, impersonations, readings, vocal and instrumental music.

M. U. Has New Stock Pavilion.

A new live stock judging pavilion that is a composite of all the good ideas used in the pavilions at the leading agricultural schools of America has just been completed at the college of agriculture of the University of Missouri at a cost of \$25,000.

The pavilion is the best lighted one in America, according to E. A. Trowbridge, professor of animal husbandry. It is 90 by 160 feet in size, the arena 50 by 120 feet, and will seat about 2,000 persons. A drop curtain divides it so that two classes can be held in the pavilion at one time.

Under the seats are four rooms, one for class demonstration, one for stabling stock shipped in for class use, one for offices, and another for toilet, lockers and shower baths. During the short course the pavilion may be used for some athletic events for the short course students.

The pavilion will be used for classes in stock judging and stock management for both regular and short course students, and for some of the meetings of farmers' week. Last winter twenty-five two-hour classes in judging alone, requiring 120 head of stock, were being held each week. Between 450 and 500 students were taking the courses.

Return From Creston.

Mr. and Mrs. J. J. Mahoney returned Monday evening from a visit with their daughter, Mrs. George Martin, of Creston.

Dr. Albert Hogan, who has been visiting his parents, Mr. and Mrs. W. W. Hogan, southwest of Maryville, left Tuesday for Manhattan, Kan., to take up his new work as instructor in the Kansas State Agricultural college.

WATER AND GAS METER LAWS.

Public Service Commission Outlines Patrons' Rights—Companies Must Make Tests and Pay Overcharges.

General order No. 20 of the public service commission at Jefferson City, which was mailed today to utility corporations supplying gas, water or electricity to the public provides that any consumer may demand at any time that the utility corporation test his meter, or by paying a nominal fee of a few dollars may have it tested by an expert from a commission. If the meter is found to be running fast the fee shall be charged to the corporation.

The order also contains other sweeping provisions for the regulations of such utilities.

The order provides that no utility shall hereafter discontinue the service of any consumer for violation of any rule of such utility except in written notice of at least twenty-four hours, advising the consumer in what particular such rule has been violated and for which the service will be discontinued.

BALL GAMES IN OLD AMERICA.

Ages Ago This Continent Was Full of Yelling, Betting Fans.

"Pla-a-a-y Baw-aw-aw!" is not as new an expression of popular impatience to have some one "start something" as some people may think. Neither is playing ball for a living a strictly modern invention. In fact, thousands of years ago, way down in Yucatan, impatient crowds sat around in ball parks, yelled themselves hoarse, beat one another in the back, and threw their feather headgear into the arena in the enthusiasm of the moment, just as we are doing today. Also there doubtless were Ty Cobbs, whose skill in "batting" and "fielding" was such that they could afford to hold up the management occasionally for a few more hundred jaguar skins a year by threats to quit professional ball and go to farming.

Of course the game was not exactly base ball. But the point is that it was a ball game, that there were regular ball parks—or courts—and that there were professionals who played the game for what there was in it to them. Mayhap the medium of exchange took the form of jaguar skins, pounds of cacao, fancy feathers, or what not, but it was money all the same, and they could buy with it at the club, or in the market place as the case might be. They had their peculiar systems of "slang," too, at least in some parts of the Americas, which, translated into English means about as much to us as ours would to them; all of which is brought out by Mr. Franklin Adams in his story "Indigenous Games in Latin America," in the July number of the Monthly Bulletin of the Pan American Union, Washington, D. C. That the ball game is an ancient institution in the Americas may be gathered from the following:

"The ball game is indigenous to the Americas. Perhaps the first simian inhabitants found true sport in catching the cocoanuts tossed from the tall palms—certain it is that several thousand years ago the ball game had reached a high state of development in the seventy cities scattered throughout Yucatan. On clearing away the matted forests enveloping these marvelous ruins, ball courts were disclosed near the most sacred temples, and, from the elaborate hieroglyphics and pictographs ornamenting the walls, much was learned of the complicated character of the sport. Centuries after the passing of these ancient Mayans, came the first Spanish explorers who found that a younger race in contiguous territory, the Aztecs, had revived the old pastime into a 'national game,' with a stone 'God of Sport' beaming on every court.

"The peculiarity of these early games was that the ball, when in play, was not thrown with the hand but struck by the hip, around which the player wore a protecting pad of leather. At each end of the court was a great stone disk with a hole in the center, and through this orifice the ball was driven before a point was scored. Very naturally a 'lively' ball was used, since rubber trees dominated the forests.

"Old chroniclers marvel at the skill and endurance of the players, for a game was seldom won under four hours of constant play. Such exhausting contests, with a dozen par-

LIGHT ON SEPT. 1

HOPKINS ELECTRIC PLANT NEARING COMPLETION.

SET POLES NEXT WEEK

Streets to Be Illuminated by Forty Lamps—Will Also Add Machinery to Make Ice.

The Hopkins electric light plant is rapidly being pushed to completion, and the service will be turned on September 1.

The building, a 32 by 38 concrete block structure, is being built by A. H. Dalby of Grant City, and will be finished in a short time. It is located near the stock yards, north of the Farmers and Merchants bank. As soon as it is completed the machinery will be installed.

Next week the poles, street lamps and wire will arrive and the work of setting up the poles, stringing the wires and hanging the lamps will be begun at once. The street lighting service will consist of forty lights over the business and residence districts, and there will be three 600-candle power lights on the business streets.

It was at a special election called June 1 that the citizens of Hopkins voted to build the electric light plant. The proposition carried by a large majority, the contract was let and work started almost immediately. The service is to be an eighteen-hour one.

In connection with the electric light plant, Mr. Dalby will install an ice plant. These improvements follow close upon the water system, which was completed just a few months ago.

MONEY BEING RAISED.

Subscriptions Being Received For the County Fair and Race Meet.

A committee was taking subscriptions this morning to the Nodaway county fair and race meet, to be held here the first week in September at the old fair grounds, east of the Burlington tracks. It is expected that about \$3,500 will be raised, and the money will be used for premiums for the stock show and the agricultural show.

It is expected that the program for the fair and race meet will be ready to announce tomorrow.

Bridge Was Moved.

County Highway Engineer John Clary reports the moving of a 30-foot steel bridge from over the Brushey creek, in Independence township, to two miles north, or east of the Dunkard church. The bridge was put over the Brushey creek, and the reason for the moving was that where the bridge was located the roads are impassable, as they have not been kept up.

A 24-foot steel bridge near the Bell school house, in Jackson township, is being taken there today.

Books Written in Prison.

A publisher was talking about Oscar Wilde's strange book, *De Profundis*, with its pathetic cover decoration of a bird beating its wings against the bars of a cell.

"Wilde's is not the first good book to have been written in jail," he said. "Jail, in fact, seems to be a good place to write books in. Literary men surpass themselves there.

"John Bunyan wrote *Pilgrim's Progress* in jail.

"Cervantes wrote *Don Quixote* in prison.

"Defoe laid the plans for *Robinson Crusoe* during a term of confinement imposed on him for the writing of a pamphlet called *The Shortest Way With the Dissenters*.

"Leight Hunt wrote *Rimini* in jail.

"Sir Walter Raleigh, during his fourteen years imprisonment in the Tower of London, wrote his excellent *History of the World*.

"Silvio Pellico and Tasso both did their best work in jail."

This array of great books written in prison is a forceful argument in favor of putting every fellow in jail who writes a poor book. He would there be brought to his proper level, and while contemplating his past misdeeds, could produce something worth while from the inspiration of actual experience.—Monotype.

BALL GAMES IN OLD AMERICA.

(Continued from Page 1)

Participants in almost constant action, were not for amateurs but professionals. Thus, from the Aztec word *ollí*, signifying "ball," came the word *mollonqui*, "one who plays ball for a living."

Another form of ball game is played by the Indian tribes of the Cudary river region in the wilds of Brazil. A carefully leveled field lies in front of the malokas, or large communal houses, and daily at 5 o'clock the men returning from the day's fishing or hunting indulge in the sport—not a complicated game like that of the early Mexicans, but one calling for a high degree of skill, as two balls are used by the players, who drive them with the hands toward their opponents. Yellow tail feathers of the Yapoo bird are affixed to the rubber balls for accuracy.

The Araucanian Indians of southern Chile play an ancient game with wooden balls driven by wooden clubs. In a clearing, 300 to 75 yards, inclosed by cut branches of trees, these Indians play *chueca*, which greatly resembles *la crosse* or field hockey. The game is played from childhood and the players acquire great skill and the matches draw large crowds. The game calls for great endurance, and while generally played in two or three hour periods, several days have been known to pass before a decision was reached. During the play it is not unusual to hear a player cry, "Am I not a real oak tree?" or "Is he not a lion's leg?" after a brilliant stroke. Such is Araucanian slang.

Large Plant at M. U. For Hog Cholera Serum.

A new hog cholera serum plant will soon be built by the College of Agriculture of the University of Missouri.

Since the Missouri legislature has appropriated \$50,000 for the building of a plant of sufficient size to supply all the needs of the state at cost. The department of veterinary science has been making plans for the new building. It will be built on a 90-acre farm two miles north of Columbia.

Two buildings are planned. One is to be a laboratory building, of brick or concrete, and the other a hyper-immune shed, 232 feet by 136 feet. It will be capable of accommodating 800 to 1,000 head of hogs, a number which will make the daily output of the plant more than 150,000 cubic inches. Everything will be systematized so that the hogs can be crated, bled and the serum made and handled with the least possible waste of time.

The serum made at the College of

Agriculture is distributed at cost to the farmers of the state. The cost is 1 1/5 cents a cubic centimeter. Men from the veterinary department are sent to administer the serum to the diseased hogs. Not only will prompt action save diseased hogs, but it will also prevent the plague from spreading to other hogs in the neighborhood.

Strike in Liverpool Delays Liners.

Liverpool, July 14.—A strike was started among the Mersey dock employees to force recognition of the workmen's unions and bring about the establishment of a joint board of workmen and employers to deal with disputes. While the strike was not general, many of the power stations were rendered idle and several liners were imprisoned in the docks owing to the impossibility of opening the gates.

German Student Killed in a Duel.

Marburg, Germany, July 14.—A student of the university here bled to death after a duel with a fellow student during which his jugular vein was severed. Fatal results are almost unknown in these encounters between the members of the various college fraternities. The duels usually involve only harmless cuts on the head and face.

Girl Makes New Swimming Record.

Philadelphia, July 14.—Miss Louise Debus, a local high school girl, swimming under the auspices of the Philadelphia Turngemeinde, broke the best authentic record for women over the five-mile marathon course in the Schuylkill river. Miss Debus covered the distance, which is in dead water, in two hours and forty-eight minutes.

ONE BALLOON STILL IN AIR

San Francisco 1915 Only One In Race Not Yet Landed.

St. Louis, July 13.—San Francisco 1915 is the only one of the eight balloons that started in the national elimination race Saturday the landing of which has not been reported.

The only accident reported to any of the contestants was the injury of John Watts, the pilot of the Kansas City II, when his balloon fell 1,000 feet at Enfield, Ill., in making a landing.

From unofficial reports the Good year, that landed at Constand, Ky., has covered the longest distance, approximately 320 miles.

America III landed near Princeton, Ind., approximately 138 miles.

Miss Sophia landed at Flat Rock, Ill., approximate distance 122 miles.

Kansas City II landed at Enfield, Ill., approximately 162 miles.

Uncle Sam landed near Lewis, Ind., some 160 miles.

Aero Club landed five miles east of Terre Haute, 150 miles.

Pennsylvania landed four miles southwest of Rockville, 200 miles.

SIX DIE IN CRASH

Singing "Nearer My God to Thee" They Drown Noise of Train.

Rochester, N. H., July 13.—Six persons returning from a Sunday school picnic were killed when the buckboard wagon on which they were riding was hit by a freight train.

The party of sixteen was singing "Nearer, My God, to Thee," as their wagon rumbled down the road toward the tracks, and the voices drowned out the noise of the train. The dead, all of whom were between fourteen and eighteen years of age, are:

Leona and Muriel Blaisdell, sisters; Edith Blaisdell and Helen Andrews, all of East Rochester; Ruth Libbey of South Lebanon, Me., and Edward Devaney of Blackington, Mass.

These actions are careful reconnaissances.

Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millionaires because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original Tuxedo process which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of an odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

STUDY Y. M. C. A.'S.

COMMITTEEMEN ARE GATHERING FACTS TO PRESENT TO PEOPLE.

PREPARE A CAMPAIGN

Will Start to Raise Money After Judge Spencer's Chautauqua Lecture.—Dormitory Features.

Although the movement for a Y. M. C. A. here is not now very much before the public, it has not been given up. The committee in charge is hard at work studying the question and gathering facts to present to the people in an active publicity campaign that will be started soon.

S. H. Kemp, chairman of the committee, is spending the month of July on a tour through the west to Wyoming. He is visiting all the Y. M. C. A.'s in the cities and towns he passes through, investigating their cost, construction, maintenance and the work they are doing. He expects to learn some things that will be of great value in the organization of a Y. M. C. A. and the erection of a building here, should the plans carry through.

Secretary of the Commercial Club W. R. Jackson is also investigating the different phases of Y. M. C. A. work. He is keeping in touch with State Secretary Banks concerning the association plans. He is studying the problems that other associations have had to meet and relating them to the conditions here. The committee wants to be thoroughly informed so as to be able to handle all matters connected with the proposed local organization to the best possible advantage.

The men at the head of the movement are counting on Judge Seldon P. Spencer of St. Louis to put the matter before the people of the community in a concrete way in his Chautauqua lecture the last Sunday of the session. For this reason they are working to arouse as much interest in Judge Spencer's lecture as possible in order that a large number of persons will go to hear him. The assure a lecture full of interest to all, for Judge Spencer is an able man, who has made a name for himself in public life. His success as a lawyer, member of the legislature, and as judge has been due largely to his education, which has made it possible for him to do things. He is particularly fitted to discuss Y. M. C. A. work, for he has long been an active member and was once international president of the association.

Mr. Jackson said today that the dormitory feature would be one of the principal things connected with a building, should one be erected. It is planned to have twenty or thirty single and double furnished rooms to rent. The rent money will go toward making the association self-supporting, and no trouble in renting the rooms is expected. In many respects these rooms will be better than any others in town. Not only will they be well furnished, but their occupants will be privileged to use the shower baths, swimming pool, gymnasium and other social features of the club. The use of reading and lounging rooms will give a more home-like character to the place than is possible in dormitories where each individual has the use of his own room only. The rents, too, will be reasonable.

Such rooms, Mr. Jackson says, would be ideal for young men working here in town or those going to school here.

The active campaign for raising the funds for the Y. M. C. A. will begin after Judge Spencer's lecture at Chautauqua, August 23.

To Visit in Maryville.

Miss Frankie Hollowell, who has been employed for some time in a millinery establishment at Crete, Neb., arrived in Maryville Monday evening to visit her parents, Mr. and Mrs. Tom Hollowell.

Prof. McCann Here.

Prof. R. E. McCann, formerly of Maryville, now living at Spokane, Wash., was in Maryville Monday visiting old friends. He left Monday evening for Hopkins to visit and will later return to this city.

Clyde Visitors in St. Joseph.

Mr. and Mrs. Chris Juhl and family and Miss Mayme Sullivan of Clyde returned Monday morning from St. Joseph, where they had gone to accompany home Mrs. C. L. Brice, who had been their guest for a week.

Ravenwood Principal Elected.

L. Y. Watson of Warrensburg, Mo., has been elected principal of the Ravenwood schools.

REMODELING SCHOOL HOUSE.

Addition Being Built to Barnard Public School.

Work has begun this week on the new addition to the Barnard public school. Two large rooms are to be added and other interior remodeling done. The building is already a good four-room brick structure, and the new addition will make the school house one of the best of the county town buildings outside of Maryville.

TWO "GOOD ROADS DAYS."

Governor Major of Missouri Designates August 18 and 19 and Will Issue a Proclamation.

August 18 and 19 will be "good roads days" in Missouri, Governor Major announced today. The governor said he would issue a proclamation this week officially setting apart the two days and calling upon every able bodied man in the state to either work on the public highways or make some substantial donation to the good of the cause of good roads.

Governor Major originated the idea of state "good roads days" last year and several other state executives followed his example of calling for volunteer work on the public highways. Last year 250,000 men worked the two days designated in this state and it is estimated that the improvement to the highways by reason of their work amounted to \$1,500,000. The governor said today he was preparing to take a pick and shovel and work as he did last year.

GRIZZLIES WIN CHAMPIONSHIP.

Two Picked Teams Will Play Series of Seven Games at Normal Next Two Weeks.

The summer base ball league ended yesterday afternoon when the Grizzlies won the championship, defeating the Athletics by a score of 5 to 4.

Out of the three teams which have contested in the league two teams have been chosen, and a series of seven games will be played, commencing Friday of this week. The two teams are captained by Adams, whose team is called the Cubs, and by Bird, whose team will be known as the Sox. The best ball players in the summer school have been chosen to make up these teams.

The line-ups of the teams are as follows: The Cubs—Adams, captain; Dyer, Ham, Ferguson, Eck, Bowen, Powell, Campbell, Hosman, Hinkle, Powers and Lewis.

The Sox—Bird, captain; Richards, Wogan, Brett, Vaughn, Alley, Quinn, Webb, Howery, Gillis, Palmer and S. Allison.

The first game will be played at 4:15 o'clock Friday afternoon. In yesterday afternoon's game the Grizzlies started activities by getting two scores in the first two innings. Later, with the bases full, Alley walked two men and allowed one hit, giving the Grizzlies five tallies before the Athletics scored. In the fourth inning Quinn replaced Alley in the box, and succeeded in shutting out the opposing team.

When the Athletics came to bat in this inning they found their stride, and by opportune hits got two runs. After retiring the other side in the fifth inning they got two more scores on a batting rally, but could do no more.

This game gave the Grizzlies the summer league championship, with the Athletics in second and the Giants in third place.

WILCOX ITEMS.

The Rev. Granville Snell will conduct evangelistic services at the Christian church every night this week. Next Sunday there will be a basket dinner for both Sunday schools. There will be preaching in the afternoon by the Rev. Mr. Love of Burlington Junction and the Rev. Mr. Orrison of St. Joseph.

Miss May Hodgkin of Conception Junction visited at the home of William Ritchie Saturday and Sunday. Mr. and Mrs. Leo Dale visited Mr. and Mrs. James Hudbeery Sunday.

S. J. Friend shipped a car of wheat to Chicago Monday, and Sherlock and Brady shipped one to St. Louis.

Miss Wray, who lives near Maryville, is visiting Miss Bernice Duncan. Sherlock and Brady shipped a car of hogs to St. Joseph Monday.

The Christian church gave an ice cream social Saturday to raise funds with which to repair and recarpet the church. The amount taken in was \$28.

DREDGE IS STUCK ON SALE JULY 21

NOT ENOUGH WATER IN RIVER TO FLOAT BIG BOAT.

DITCH WORK STOPPED

Little More Than Two Miles Finished and Time of Channel's Completion Can't Be Estimated.

The steam dredge which was to have cut at new 7-foot channel drainage ditch from the Iowa line to the Carr bridge, four miles south of Maryville, by September 1, is resting on the bottom of the river, useless, a short distance north of Hopkins. Nothing has happened to the dredge, however. It is in good condition and ready to start work again as soon as the river furnishes enough water to float it.

When the work was first started last April, D. C. Stephens & Co. of Buffalo, N. Y., contractors, expected to finish the nineteen miles of ditch by September 1. Unforeseen things have made that impossible, however, and but little more than two miles have been completed. Once previously the drainage was forced to lie idle thirty-three days because the water in the channel was too low to float it.

H. H. McClurg, secretary of the 102 drainage board, said this morning that the dredge was lying in the middle fork of the ditch north of Hopkins. The west fork, or main ditch, from the Iowa line to Hopkins was completed some time ago. The dredge was then taken to the middle fork to begin work, and the job was about half completed when the water became so low that work had to be stopped.

The channel which is being dug to straighten and shorten the 102 river will cost \$32,000. It will be nearly eighteen miles long, or one-third the length of the river. The channel will be seven feet deep, twenty-four feet wide at the top and eight feet wide at the bottom, and its construction will necessitate the removal of nearly half a million cubic feet of earth.

The time of completion of the ditch is a thing beyond estimate. Now that the water has given out just at the beginning of the season, when the least rain can be expected, it is impossible to say when the work can be resumed.

WILLIAM NASH DEAD.

Hopkins Man Dies at Leavenworth—Brother of Mrs. Wm. Armstrong.

William Nash of Hopkins died Tuesday morning at the Soldiers' home at Leavenworth, Kan. The body will be brought to Hopkins for burial, reaching there Wednesday noon, when the funeral arrangements will be made.

Mr. Nash's wife died several months ago, and shortly after that he suffered a paralytic stroke. After he became stronger he went to the Soldiers' home to live. He leaves a son, Sargent Nash, who is employed in the office of the Hopkins Journal; a daughter, Miss Helen Nash, who is in this city attending the Normal, and a sister, Mrs. William Armstrong of Maryville.

Rev. C. R. Green to Columbus.

Rev. C. R. Green of the Harmony church, accompanied by Mrs. Green, left Monday for Columbus, O., to attend a special session of the general conference of the United Brethren and Methodist Protestant churches. On their return home, Rev. and Mrs. Green will stop at St. Bernice, Ind., to visit.

CHAUTAUQUA TICKETS ON MARKET WEEK FROM TODAY.

PRICE GOES UP AUG. 8

Pickering Six-Day Session Begins Tomorrow—Talent Again Furnished by the Jones System.

One week from today, Tuesday, July 21, the ticket sale for the Nodaway County Chautauqua will begin. Following the method used in former years, the town will be canvassed and tickets will be put on sale at the different business places down town. Saturday, August 8, is the time limit set within which tickets may be bought at reduced rates. The price of season tickets for adults is \$1.75 at the reduced rate. Children's tickets will sell for \$1. After August 8 the prices will be raised to \$2 for the adult tickets and \$1.25 for the children's.

The Pickering Chautauqua, which begins tomorrow, is to be put on by the Jones Chautauqua System, the same one which started the Elmo Chautauqua today. The Jones people first began giving Chautauquas in the towns of the county three or four years ago. To some of these towns they have returned every year, and have from year to year started the Chautauqua movement in other towns. The Pickering Chautauqua will last six days, and during that time twelve programs will be given, one each afternoon and night.

The programs for the first three days are:

Thursday—The Hauser Sisters, musicians, and Prof. Charles B. Rayhill, lecturer, who will give both the afternoon and night entertainments.

Friday—An afternoon and night entertainment by Carl A. E. Jesse, pianist, harpist, crayon artist, impersonator and magician, and Dr. H. C. Kleckner, lecturer.

Saturday—Two complete programs by the Burgess Dramatic company. This company will give short plays, character sketches, impersonations, readings, vocal and instrumental music.

M. U. Has New Stock Pavilion.

A new live stock judging pavilion that is a composite of all the good ideas used in the pavilions at the leading agricultural schools of America has just been completed at the college of agriculture of the University of Missouri at a cost of \$25,000.

The pavilion is the best lighted one in America, according to E. A. Trowbridge, professor of animal husbandry. It is 90 by 160 feet in size, the arena 50 by 120 feet, and will seat about 9,000 persons. A drop curtain divides it so that two classes can be held in the pavilion at one time.

Under the seats are four rooms, one for class demonstration, one for stabling stock shipped in for class use, one for offices, and another for toilet, lockers and shower baths. During the short course the pavilion may be used for some athletic events for the short course students.

The pavilion will be used for classes in stock judging and stock management for both regular and short course students, and for some of the meetings of farmers' week. Last winter twenty-five two-hour classes in judging alone, requiring 120 head of stock, were being held each week. Between 450 and 500 students were taking the courses.

WATER AND GAS METER LAWS.

Public Service Commission Outlines Patrons' Rights—Companies Must Make Tests and Pay Overcharges.

General order No. 20 of the public service commission at Jefferson City, which was mailed today to utility corporations supplying gas, water or electricity to the public provides that any consumer may demand at any time that the utility corporation test his meter, or by paying a nominal fee of a few dollars may have it tested by an expert from a commission. If the meter is found to be running fast the fee shall be charged to the corporation.

The order also contains other sweeping provisions for the regulations of such utilities.

The order provides that no utility shall hereafter discontinue the service of any consumer for violation of any rule of such utility except in written notice of at least twenty-four hours, advising the consumer in what particular such rule has been violated and for which the service will be discontinued.

BALL GAMES IN OLD AMERICA.

Agos Ago This Continent Was Full of Yelling, Betting Fans.

"Pia-a-a-y Baw-aw-aw-!" is not as new an expression of popular impatience to have some one "start something" as some people may think. Neither is playing ball for a living a strictly modern invention. In fact, thousands of years ago, way down in Yucatan, impatient crowds sat around in ball parks, yelled themselves hoarse, beat one another in the back, and threw their feathered heads into the arena in the enthusiasm of the moment, just as we are doing today. Also there doubtless were Ty Cobbs, whose skill in "batting" and "fielding" was such that they could afford to hold up the management occasionally for a few more hundred jaguar skins a year by threats to quit professional ball and go to farming.

Of course the game was not exactly base ball. But the point is that it was a ball game, that there were regular ball parks—or courts—and that there were professionals who played the game for what there was in it to them. Mayhap the medium of exchange took the form of jaguar skins, pounds of cacao, fancy feathers, or what not, but it was money all the same, and they could buy with it at the club, or in the market place as the case might be. They had their peculiar systems of "slang," too, at least in some parts of the Americas, which, translated into English means about as much to us as ours would to them; all of which is brought out by Mr. Franklin Adams in his story "Indigenous Games in Latin America," in the July number of the Monthly Bulletin of the Pan American Union, Washington, D. C. That the ball game is an ancient institution in the Americas may be gathered from the following:

"The ball game is indigenous to the Americas. Perhaps the first smian inhabitants found true sport in catching the coccenants tossed from the tall palms—certain it is that several thousand years ago the ball game had reached a high state of development in the seventy cities scattered throughout Yucatan. On clearing away the matted forests enveloping these marvelous ruins, ball courts were disclosed near the most sacred temples, and, from the elaborate hieroglyphics and pictographs ornamenting the walls, much was learned of the complicated character of the sport. Centuries after the passing of these ancient Mayans, came the first Spanish explorers who found that a younger race in contiguous territory, the Aztecs, had revived the old pastime into a "national game," with a stone "God of Sport" beaming on every court.

"The peculiarity of these early games was that the ball, when in play, was not thrown with the hand but struck by the hip, around which the player wore a protecting pad of leather. At each end of the court was a great stone disk with a hole in the center, and through this orifice the ball was driven before a point was scored. Very naturally a "lively" ball was used, since rubber trees dominated the forests.

"Old chroniclers marvel at the skill and endurance of the players, for a game was seldom won under four hours of constant play. Such exhausting contests, with a dozen par-

HOPKINS ELECTRIC PLANT NEARING COMPLETION.

SET POLES NEXT WEEK

Streets to Be Illumined by Forty Lamps—Will Also Add Machinery to Make Ice.

The Hopkins electric light plant is rapidly being pushed to completion, and the service will be turned on September 1.

The building, a 32 by 38 concrete block structure, is being built by A. H. Dalby of Grant City, and will be finished in a short time. It is located near the stock yards, north of the Farmers and Merchants bank. As soon as it is completed the machinery will be installed.

Next week the poles, street lamps and wire will arrive and the work of setting up the poles, stringing the wires and hanging the lamps will be begun at once. The street lighting service will consist of forty lights over the business and residence districts, and there will be three 600-candle power lights on the business streets.

It was at a special election called June 1 that the citizens of Hopkins voted to build the electric light plant. The proposition carried by a large majority, the contract was let and work started almost immediately. The service is to be an eighteen-hour one.

In connection with the electric light plant, Mr. Dalby will install an ice plant. These improvements follow close upon the water system, which was completed just a few months ago.

MONEY BEING RAISED.

Subscriptions Being Received For the County Fair and Race Meet.

A committee was taking subscriptions this morning to the Nodaway county fair and race meet, to be held here the first week in September at the old fair grounds, east of the Burlington tracks. It is expected that about \$3,500 will be raised, and the money will be used for premiums for the stock show and the agricultural show.

It is expected that the program for the fair and race meet will be ready to announce tomorrow.

Bridge Was Moved.

County Highway Engineer John Clary reports the moving of a 30-foot steel bridge from over the Brushy creek, in Independence township, to two miles north, or east of the Dunkard church. The bridge was put over the Brushy creek, and the reason for the moving was that where the bridge was located the roads are impassable, as they have not been kept up.

A 24-foot steel bridge near the Bell school house, in Jackson township, is being taken there today.

Books Written in Prison.

A publisher was talking about Oscar Wilde's strange book, *De Profundis*, with its pathetic cover decoration of a bird beating its wings against the bars of a cell.

"Wilde's is not the first good book to have been written in jail," he said. "Jail, in fact, seems to be a good place to write books in. Literary men surpass themselves there.

"John Bunyan wrote *Pilgrim's Progress* in jail.

"Cervantes wrote *Don Quixote* in prison.

"Defoe laid the plans for *Robinson Crusoe* during a term of confinement imposed on him for the writing of a pamphlet called *The Shortest Way With the Dissenters*.

"Leigh Hunt wrote *Rimini* in jail.

"Sir Walter Raleigh, during his fourteen years imprisonment in the Tower of London, wrote his excellent *History of the World*.

"Silvio Pellico and Tasso both did their best work in jail."

This array of great books written in prison is a forceful argument in favor of putting every fellow in jail who writes a poor book. He would there be brought to his proper level, and while contemplating his past misdeeds, could produce something worth while from the inspiration of actual experience.—Monotype.

BALL GAMES IN OLD AMERICA.

(Continued from Page 1)

Participants in almost constant action, were not for amateurs but professionals. Thus, from the Aztec word *oll*, signifying "ball," came the word *mollonqui*, "one who plays ball for a living."

Another form of ball game is played by the Indian tribes of the Cuduary river region in the wilds of Brazil. A carefully leveled field lies in front of the malokas, or large communal houses, and daily at 5 o'clock the men returning from the day's fishing or hunting indulge in the sport—not a complicated game like that of the early Mexicans, but one calling for a high degree of skill, as two balls are used by the players, who drive them with the hands toward their opponents. Yellow tail feathers of the Yapoo bird are affixed to the rubber balls for accuracy.

The Araucanian Indians of southern Chile play an ancient game with wooden balls driven by wooden clubs. In a clearing, 300 to 75 yards, inclosed by cut branches of trees, these Indians play *chueca*, which greatly resembles *la crosse* or *field hockey*. The game is played from childhood and the players acquire great skill and the matches draw large crowds. The game calls for great endurance, and while generally played in two or three hour periods, several days have been known to pass before a decision was reached. During the play it is not unusual to hear a player cry, "Am I not a real oak tree?" or "Is he not a lion's leg?" after a brilliant stroke. Such is Araucanian slang.

Large Plant at M. U. For Hog Cholera Serum.

A new hog cholera serum plant will soon be built by the College of Agriculture of the University of Missouri.

Since the Missouri legislature has appropriated \$50,000 for the building of a plant of sufficient size to supply all the needs of the state at cost. The department of veterinary science has been making plans for the new building. It will be built on a 90-acre farm two miles north of Columbia.

Two buildings are planned. One is to be a laboratory building, of brick or concrete, and the other a hyper-immune shed, 232 feet by 136 feet. It will be capable of accommodating 800 to 1,000 head of hogs, a number which will make the daily output of the plant more than 150,000 cubic inches. Everything will be systematized so that the hogs can be crated, bled and the serum made and handled with the least possible waste of time.

The serum made at the College of

Agriculture is distributed at cost to the farmers of the state. The cost is 11-5 cents a cubic centimeter. Men from the veterinary department are sent to administer the serum to the diseased hogs. Not only will prompt action save diseased hogs, but it will also prevent the plague from spreading to other hogs in the neighborhood.

Strike in Liverpool Delays Liners.

Liverpool, July 14.—A strike was started among the Mersey dock employees to force recognition of the workmen's unions and bring about the establishment of a joint board of workmen and employers to deal with disputes. While the strike was not general, many of the power stations were rendered idle and several liners were imprisoned in the docks owing to the impossibility of opening the gates.

German Student Killed in a Duel.

Marburg, Germany, July 14.—A student of the university here died of death after a duel with a fellow student during which his jugular vein was severed. Fatal results are almost unknown in these encounters between the members of the various college fraternities. The duels usually involve only harmless cuts on the head and face.

Girl Makes New Swimming Record.

Philadelphia, July 14.—Miss Louise Debus, a local high school girl, swimming under the auspices of the Philadelphia Turnverein, broke the best authentic record for women over the five-mile marathon course in the Schuylkill river. Miss Debus covered the distance, which is in dead water, in two hours and forty-eight minutes.

The men of the party and business friends will join the Circle at 6 o'clock, when supper will be served.

Dinner Party Sunday.

Mr. and Mrs. Silas Moxingo entertained a large party of friends Sunday with a dinner at their country home, near Bedison. The guests were Mr. and Mrs. Ed Zwilling and daughter, Ella, of Clearmont; Mr. and Mrs. H. B. Glines of Pickering, Mr. and Mrs. Charles Gorton and children, Mrs. Smith and sons, Mr. and Mrs. Charles Moxingo and family, Mr. and Mrs. John Deck and family and Jeff Smith, all of Bedison and vicinity.

Picnic Party on Frank Lawn.

A neighborhood picnic and outdoor supper will be given Tuesday evening on the lawn of the W. C. Frank home. The gathering is in honor of Mrs. W. A. Via of Rolla, Mo., who is visiting her daughter, Mrs. F. L. Flynt, and to celebrate the wedding anniversary of Mr. and Mrs. G. B. Roseberry. The crowd will include Mr. and Mrs. Roseberry and daughter, Esther; Mrs. Via, Mr. and Mrs. Flynt and daughter, Elizabeth, Mr. and Mrs. W. C. Frank, Rev. and Mrs. Robert L. Finch and son, Robert, Jr.; Mr. and Mrs. Dale Bellows, Mr. and Mrs. F. W. Crow, Mr. and Mrs. Newton Hagins and son, Wesley; Mr. and Mrs. Arch Frank and daughter, Eva Margaret.

Choir Members Entertained.

Mrs. Dorothy Gordon, who is a member of the First Presbyterian church choir, entertained the choir members with a theater party at the Star Monday evening. Mrs. Gordon has recently sold the Star and will leave Thursday for Davenport, Ia., to make her home. The Monday evening party included Mr. and Mrs. W. H. Crawford, Mr. and Mrs. George R. Eaton and daughter, Dorothy; Miss Lois Farmer, Miss Ethel Woods, Miss Helen Leffler, Miss Laura Craig and her guest, Miss Selma Young of Creston; Fred Lewis and Harvey McClarey.

Park Breakfast For Visiting Friends.

A pretty innovation in the entertaining of the week was made Tuesday morning, when Misses Jeanette and Isora Mutz and Miss Iva Bee Hawkins gave a park breakfast at the Normal grounds in compliment to Miss Ruth Melvin of Mound City, Miss Winifred Eversz of Chicago and Miss Frances Montgomery of Skidmore, who are house guests of Misses Marie and Kathleen Wells. The party included Miss Eversz, Miss Melvin, Miss Montgomery, the Misses Wells, Miss Goldie Roelofson, Miss Lola Wright, Miss Ruth Matter, Miss Lucile Airy, Miss Josephine Keeler, Miss Hawkins and the Misses Mutz.

Farewell For Miss Allen.

Mr. and Mrs. Ed Allen, living north of Conception, entertained Sunday evening, giving the affair as a farewell for their daughter, May, who leaves soon for an extensive visit in Colorado. The hours were spent with games, music and singing, and a delicious supper was enjoyed. The guests were Mrs. Vonsauch, Miss Anna Brady, Miss Katie Merrigan, Miss May Graham, Miss Lucy Archer, Miss Margaret Corcoran, Miss Loretta McManus, Miss Irene Corcoran, Miss Frances McManus, Thomas and John Brady, Patrick Merrigan, Earl Kelley, Cornelius McManus, Thomas and Will Graham, Samuel Allen and Thomas Archer.

For Visiting Nephew.

T. J. Parle of Fort Dodge, Ia., who is visiting in Maryville with his uncle, John Graham and T. J. Parle, and families, was the guest of a dinner party given Sunday by Mr. and Mrs. John Graham. Those present were Mr. Parle, Mr. and Mrs. Charles Barman and family of near Arkoe, Mrs.

Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millionaires because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original Tuxedo process which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of an odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

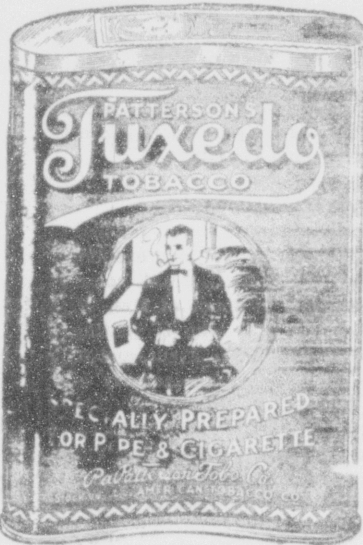

YOU CAN BUY TUXEDO EVERYWHERE

George Graham and family of Clyde, Mr. and Mrs. T. J. Faris and family, and Mr. and Mrs. John Graham and family. All the company present were relatives. Young Mr. Parle arrived in the city Saturday night from Baltimore, where he has been attending school. En route home he stopped at Hannibal to visit his cousin, Rev. Father Robert Graham, and at Mt. St. Scholastica convent, at Atchison, Kan., to visit another cousin, Miss Mae Parle, the daughter of Mr. and Mrs. Thomas Parle of this city.

Surprise For Mrs. Neal.

Mrs. Ira Neal of Pickering was given a pleasant surprise party Monday by a number of her friends in honor of her birthday anniversary. At noon a picnic spread which the guests had provided was enjoyed, and the afternoon spent with music and games. The guests were Mr. and Mrs. Ben Ingles and family, Mrs. Mattie Fine, Mrs. M. A. Moberly, Mrs. Jane Leech, Mr. and Mrs. C. C. Moon, Mrs. Ed Rickard and son, Mrs. Margaret Houston, Mrs. Elizabeth Berkeley, Misses Letha and Juanita Nickerson, Mrs. M. E. Smith, Mrs. W. A. Berkey and son, Mrs. Frank Shreves, Mrs. Maggie Lutz, Miss Nettie Moberly and Mrs. Maggie Jones.

To Celebrate Anniversary.

A delightful surprise which took the form of a dinner party was given Sunday by the relatives and friends of Samuel Scowden, at his home, eight miles south of Maryville, in celebration of Mr. Scowden's sixty-fifth birthday anniversary. The guests assembled at 11 o'clock, bringing with them baskets packed with everything to serve a sumptuous menu. The day was spent in informal visiting. Those present were Mr. Scowden, Mr. and Mrs. L. A. Nigh, Miss Lora Nigh, Harley Nigh, Lewis Sparks, Mr. and Mrs. J. M. Holton and children of Gaynor, Mr. and Mrs. J. P. Scowden, Mr. and Mrs. Victor Wray and children and Miss Lela Wray of Orsburg, John Scowden, Mr. and Mrs. Charles Dempsey, Harold and Kenneth Lightfoot of Maryville.

Home From Tarkio.

Miss Lorena Hopley returned Monday evening from a week's visit at Tarkio with her cousin, Mrs. Ed Blakesley.

To St. Joseph.

Mr. and Mrs. B. M. Roach and Mr. and Mrs. Matt C. Gwinn of Bedison left Tuesday morning in the Gwinn car for St. Joseph on a business trip.

Ramey Bros. and Riley & Giesken of Nodaway county, each contributed a load of mixed stock at the stock yards in South St. Joseph Monday.

ONE BALLOON STILL IN AIR

San Francisco 1915 Only One in Race Not Yet Landed.

St. Louis, July 13.—San Francisco 1915 is the only one of the eight balloons that started in the national elimination race Saturday the landing of which has not been reported.

The only accident reported to any of the contestants was the injury of John Watts, the pilot of the Kansas City II, when his balloon fell 1,000 feet at Enfield, Ill., in making a landing.

From unofficial reports the Good year, that landed at Constand, Ky., has covered the longest distance, approximately 320 miles.

America III landed near Princeton, Ind., approximately 138 miles.

Miss Sophia landed at Flat Rock, Ill., approximately 132 miles.

Kansas City II landed at Enfield, Ill., approximately 102 miles.

Uncle Sam landed near Lewis, Ind., some 150 miles.

Aero Club landed five miles east of Terre Haute, 150 miles.

Pennsylvania landed four miles southwest of Rockville, 200 miles.

SIX DIE IN CRASH

Singing "Nearer My God to Thee" They Drown Noise of Train.

Rochester, N. H., July 13.—Six persons returning from a Sunday school picnic were killed when the buckboard wagon on which they were riding was hit by a freight train.

The party of sixteen was singing "Nearer My God, to Thee," as their wagon rumbled down the road toward the tracks, and the voices drowned out the noise of the train. The dead, all of whom were between fourteen and eighteen years of age, are:

Leona and Muriel Blaisdell, sisters; Edith Blaisdell and Helen Andrews, all of East Rochester; Ruth Libbey of South Lebanon, Me., and Edward Devaney of Blackington, Mass.

Fighting at San Luis Potosi.

Saltillo, Mexico, July 13.—Fighting already has commenced at San Luis Potosi. Engagements of outposts designed by the Constitutionalists to establish the federal strength and position are of daily occurrence, according to reports received here by General Carranza. These actions are careful reconnaissances.
